Objective

Aspiring fresher passionate and driven to contribute to impactful projects in a growth-oriented company, while continuously expanding my technical skills and embracing new challenges in a collaborative team environment.

Skills

Languages	C, Python, JavaScript, SQL, PHP, HTML, CSS.
Technical Skills	Django, React.js, Bootstrap, Django Rest Framework, Rest API, PostgreSQL, MySQL.
Developer Tools	Jest, PyTest, Tableau, Git and GitHub, VSCode.

Experience

Full Stack Development Internship | Blackbuck IIDT June 2024-July 2024

- Contributed to the development of full-stack web applications using Python and Django for backend and HTML, CSS, JavaScript React.js for frontend.
- Designed and integrated RESTful APIs to enable seamless communication between the frontend and backend systems.
- Developed and optimized database schemas using MySQL, writing complex queries and ensuring data integrity.
- Implemented user authentication, form handling, and session management using Django's built-in features or Flask extensions.
- Collaborated with UI/UX designers to translate wireframes into responsive, interactive user interfaces.
- Participated in Agile development processes, including sprint planning, code reviews, and version control using Git and GitHub.

Projects

Recipe Sharing and Meal Planner Application

Tech Stack: Django, HTML, CSS, JavaScript

- Developed a full-stack recipe sharing and meal planning platform using Django to allow users to share recipes, plan meals, and track nutritional information.
- Implemented user authentication for personalized experience, enabling users to create accounts, save favourite recipes, and plan meals for the week.
- Created a recipe management system that allows users to submit, edit, and delete recipes with ingredients, instructions, and nutritional details.
- Built a meal planner feature where users can select recipes for each day, automatically generating grocery lists based on meal plans.
- Designed a responsive, user-friendly interface with HTML, CSS, and JavaScript, ensuring optimal usability on both desktop and mobile devices.

Employee Management System

Tech Stack: SQLite, HTML, CSS, JavaScript

- Developed a Python-based application to manage employee records, including functionalities for adding, updating, deleting, and searching employee data.
- Integrated MySQL as the backend database to store employee information such as personal details, job roles, salaries, and attendance.
- Implemented login authentication and role-based access for admin and HR users.
- Wrote modular and reusable code with proper error handling, data validation, and secure database transactions using MySQL connector.
- Enabled report generation features for employee lists, salary reports, and department-wise breakdowns.

Blog Website

Tech Stack: Django, HTML, CSS, JavaScript, SQLite

- Developed a full-featured blog platform using Django with user authentication and role-based access control.
- Implemented CRUD operations for blog posts with rich text formatting and image upload support using Django's ImageField and media handling.
- Designed a responsive user interface with HTML, CSS, and JavaScript for seamless cross-device experience.
- Customized the Django admin panel for efficient management of users, posts, images, and comments.

Weather Application

Tech Stack: React.js, HTML, CSS, JavaScript, API.

- Built a responsive weather app using React.js to fetch and display real-time weather data via the OpenWeatherMap API.
- Implemented search functionality allowing users to view current weather by city name, including temperature, humidity, wind speed, and weather conditions.
- Utilized React hooks for efficient state management and API integration.

Dictionary

- Developed a basic Dictionary using HTML, CSS, JavaScript.
- Developed a Dictionary website with API integration.

Education

- **B.Tech (ECE)**
  GIET Engineering College | 7.35 CGPA | 2021-2025
- **Intermediate (MPC)**
  Narayana Junior College | 80% | 2019-2021
- **Matriculation/SSC**
  Kendriya Vidyalaya | 75% | 2008-2018

Soft Skills

- Exceptional Communication and Interpersonal Skills.
- Analytical Thinking and Problem Solving.
- Organizational and Time Management Skills.
- Flexibility and Adaptability in Remote Work Environments.
