LinkedIn: [linkedin.com/in/aarifsyed](https://linkedin.com/in/aarifsyed) | Portfolio: [aarif-portfolio.onrender.com](https://aarif-portfolio.onrender.com)

## Objective

Aspiring fresher passionate and driven to contribute to impactful projects in a growth-oriented company, while continuously expanding my technical skills and embracing new challenges in a collaborative team environment.

## Skills

Languages	Python, JavaScript, PostgreSQL, HTML, CSS.
Technical Skills	Django, React.js, Django Rest Framework, Rest API.
Developer Tools	Docker, Postman, Git and GitHub, VSCode, Render.

## Experience

Python Developer Intern | AKKINETIC SOLUTIONS | Remote

July 2025 – Dec 2025

- Collaborated with a development team in an Agile environment to design and deploy internal web applications using Django REST Framework and PostgreSQL.
- Developed and implemented RESTful APIs for employee data management and database models using Django ORM with PostgreSQL.
- Wrote clean, maintainable code with comprehensive test coverage and actively participated in peer code review processes.
- Gained experience with Django REST Framework, PostgreSQL database design, Docker containerization and Git version control.

## Key Projects During Internship

**Employee Onboarding Portal:** Designed and implemented REST APIs for employee management, built secure file upload system, developed automated email notification service and role-based access control system.

**Inventory Management System:** Developed asset checkout system with reservation workflows and approval processes, created comprehensive inventory dashboard with real-time analytics and status tracking.

## Projects

### Task Management System

Source: [Aarif-Syed-216/Task-Management-System](https://Aarif-Syed-216/Task-Management-System)

Tech Stack: Django, DRF, GraphQL, Django Channels, PostgreSQL, Redis, Celery, Docker.

- Implemented real-time WebSocket notifications using Django Channels with Redis backend for instant updates.
- Built dual API system (REST + GraphQL) with JWT authentication and 5-tier role-based permission system.
- Containerized application with Docker (web, celery, redis, postgres) and implemented production-ready configuration.

### Blog Website

Source: [Aarif-Syed-216/Blog](https://Aarif-Syed-216/Blog)

Tech Stack: Django, HTML, CSS, JavaScript, SQLite.

- Developed a full-featured blog platform using Django with user authentication and role-based access control.
- Implemented CRUD operations for blog posts with rich text formatting and image upload support using Django's ImageField and media handling.

### Weather Application

Source: [Aarif-Syed-216/Weather-App](https://Aarif-Syed-216/Weather-App) Live : [Weather](https://Weather)

Tech Stack: React.js, HTML, CSS, JavaScript, API.

- Built a responsive weather app using React.js to fetch and display real-time weather data via the OpenWeatherMap API and GeoDB Cities API.
- Utilized React hooks for efficient state management and API integration.

## Education

B.Tech (ECE)	GIET Engineering College	7.2 CGPA	2021-2025
Intermediate (MPC)	Narayana Junior College	80%	2019-2021
Matriculation/SSC	Kendriya Vidyalaya	75%	2008-2018
